WEEKLY NEWSPAPER OF HALIBURTON COUNTY

25 cents

Minden, Ontario

The world famous
Rockcliffe Hotel
 presents this week
Carl Nixon

VOLUME III, No. 21

Wednesday, March 18, 1981

It is a sure sign of spring David Schell holds in his hand. It is a bottle of amber, Haliburton County maple syrup. This particular syrup is a product of the sugar bush adjacent to Archie Stouffer Elementary School. The students of Mrs. Audrey Chambers and Mr. Dale McConnell's grade six classes are in charge of the collection of the sap and the preparation of the syrup. More pictures on page 3.

Water rates raised-- \$11.30 more per home

Minden Village residents will be facing an increase in water rates this year.

The township council had been toying with the prospect since late last year when an auditor's report identified some of the shortcomings of the water system's financial health. At the March 11 meeting the council took steps to eliminate the yearly water deficit and begin a program to reduce the accumulated deficit of \$33,000.

Residential and commercial users will now pay a flat monthly rate of \$7.05. This figure will apply no matter what quantity of water had been consumed. The new rate will bring the yearly minimum water charge to \$84.60. The compares with \$73.32 paid last year.

In addition to the increased minimum rate, discounts for those who pay their water bills by a certain date will be discontinued.

Many commercial water users will also notice a sharp increase in their water bills this year. The increase will be the result of readjustments in the number of "units" assigned to each business.

Water bills for commercial establishments are based on an estimated water use. All businesses will now pay a minimum three units for water services. Last year the minimum was two units. Heavy water users are assigned larger number of units depending on how much water they consume.

According to Councillor Ed pergolas, who reviewed the existing list of units assigned to various businesses, many are not paying their share and some were "hopelessly under-charged." During his review of the list, the councillor also found a number of businesses which were not being charged for water even though they were connected to the system.

The council studied the list

prepared by the councillor and confirmed or reset most of the rates. In a number of cases where water charges would rise above 25 units, the council has agreed to install meters to measure water consumption if the customer requested it. Among those places slated for charges of over 25 units are Hyland Crest, Archie Stouffer Elementary School, the hotels, the arena and community centre and a number of businesses.

According to Pergolas, raising the minimum rate, eliminating discounts for prepayment, increasing the

minimum units for commercial users and readjusting the units charged to commercial users should eliminate any deficit expected in this year's operation of the water system. The initial computation showed increased revenue of \$8800 compared with an expected deficit of \$8000.

The council has also agreed to include a discount for seniors or those on fixed income.

The by-law authorizing the changes in the water charges is to be drafted for presentation at the next meeting of the council, March 25.

OMB approves BIA by-law

The formation of a Business Improvement Area (BIA) for the core area of Minden took another significant step forward last week as township council received approval of the by-law creating the BIA from the Ontario Municipal Board. The council also selected a number of individuals to serve

favouring factions be included on the board of management. A member of council is also included on that board.

The council has asked former councillor Stuart Brandon, Stedman's Store operator Jerry Pillsworth and Gordon Monk to represent those in favour of the BIA on the board of management. As of press time only one individual who was opposed to the BIA, Joe Shapiera, has agreed to serve on the board. A number of other merchants have been contacted, but have declined the offer.

The member of council who will sit on the management board has also yet to be chosen.

on the board of management for the improvement body.

The OMB approval came after the initial by-law enacted by the council was challenged by a number of businessmen. Following a hearing earlier this year, the OMB ordered that a new by-law be drafted and that representatives from both the opposing and

Council votes own increase

Remuneration and expense allowances for members of Anson, Hindon and Minden Township council were raised at the March 11 meeting.

The reeve will receive a \$4250 honorarium, the same amount that was set aside for that office last year. The reeve's expense allowance was raised however, from \$750 to \$1000. This allowance, which

was last raised in 1977, is provided over and above expenses incurred by the head of the municipality when attending conventions or other functions on behalf of the township.

The honorarium for deputy-reeve was increased from \$2875 to \$3500, while

the expense allowance was also increased from \$575 to \$750.

Members of the council will now receive a yearly honorarium of \$3000 compared to \$2625 paid last year. The expense allowance for councillors will also be increased from \$525 to \$550.

In addition, those councillors not living in the village will be paid 22¢ per mile to travel to and from council meetings.

In addition to approving the higher rates for the council members, the councillors also endorsed a by-law increasing the rates of pay for council employees.

Zoning by-law options considered

A major revision of the existing zoning by-law or a complete new statute is needed in the municipality of Anson, Hindon and Minden. That is the opinion of Pat Vanini of the Ontario Ministry of Housing. Most of the members of the township council appear to share that view.

Vanini appeared before the members of the council at the March 11 meeting to discuss the future of the township's zoning by-law. She noted that the present by-law was written in 1967 and is outdated. She pointed out that numerous provincial regulations and statutes have been enacted since the by-law was passed and that these have seriously

impaired the effectiveness of the township by-law. Vanini suggested to the council that two options were open to bring the existing by-law up to date.

"You could attempt to live with the existing by-law by undertaking a major revision and update," she told the council. This would entail a careful reassessment of all sections of the by-law adding amendments where required. She pointed out that this route could be marginally less expensive than drafting a completely new statute but also noted that could result in confusion as two documents, the original by-law and the amendments, would have to be consulted by anyone

seeking information about the municipality's zoning restrictions.

As to drafting an entirely new by-law, Vanini pointed out the costs of such an undertaking would probably be more than the update, but not that much greater even though the final product would be of greater value. She noted that re-writing the by-law would improve the township's data base and "clean up loose ends" She also said it would bring the by-law in line with provincial legislation.

The township's zoning and land use by-law, designates the type of activity which can take place in certain parts of the municipality. It also lists

the regulations for activity within each zone including, for example, such items as lot size, minimum frontage on roads and lakes, setbacks and other provisions.

Vanini said re-writing the by-law could cost between \$10,000 and \$15,000 with a possibility of the provincial government absorbing possibly 60% of the cost. She suggested the council ask several consulting firms to prepare cost analysis for the two routes before they decide which to embark on.

She also pointed out that any new zoning by-law would have to take into consideration the direction laid out by

(more on page 2)

FROM THE CHAMBER

By Bob Stinson

This is the last column before we head to the Toronto Sportsmen Show and the last call for your participation with either brochures or direct representation. We still have room for more members.

We will be heading down Thursday morning and will return Tuesday, March 31st. There will therefore be no column for the next two weeks, while we are away.

If you are in Toronto during the March break drop in and see us at both W-31 and pick up a "Beer Nut" tee shirt while they last.

Toll free line installed

Although we are experiencing a slight delay in acquiring the switching equipment with which we will forward calls to participating members we now have the toll free telephone line (1-800-461-7677) in operation. As a result of an H.C.S.A. newsletter we have already had a number of cottagers making use of the new service to inquire about conditions on cottage roads and lakes. We welcome this, of course, but it does already indicate how important it is for various organizations and individuals to keep the Chamber staff informed on events and conditions.

A good example occurred last week when both Pat Waddell of Haliburton Wildlife and Bob Jennings of Sandy Lanes contacted the office to let us know that there was still skiing and snowmobiling available in the northern part of the county. We were able to pass this information on to the media as well as quite a number of anxious callers.

So please keep us informed and we'll do our best to keep the public informed.

Tourist trends

A number of indicators suggest that we are going to see far more visitors from south of the border than we have experienced in the past. Operators report a dramatic increase in inquiries from that sector and those visiting travel shows tell us that they are very hungry for information on Ontario wherever they go. Our depressed dollar is a major factor and to them our gas prices are still a bargain. Let's be sure to "Treat them Royally" and be prepared to grant them full exchange on their money.

The loss of snow has not had as large an impact on local business as we would have expected. It is amazing how many visitors are still coming to our area in spite of conditions right now, and business, although down, is at least not dead. Let's hope this is a good sign for the spring and summer ahead.

Year of the Disabled

Did you know that one in every ten Canadians has a disability of some kind. As hosts to visitors from all over Canada, United States and Europe can we afford to overlook this "Hidden 10%", let alone consider our own residents of the county with disabilities.

One of the major goals of proclaiming this year as a year of the disabled was to create an awareness that would in turn cause us to provide better facilities for these people. The Ontario Government is now identifying in their various directories where special facilities exist to handle such things as wheelchairs.

Look around your place of business. There are probably some very simple things you could consider doing that would make it more accessible to those in wheelchairs, or those who walk with a cane or crutches, or to those who are blind. It could be as simple as installing a handrail or building a ramp or widening a door or aisle. It could be more complicated like adequate washroom facilities. Whatever needs to be done should be considered as a responsibility to one out of every 10 customers that may use your facilities.

Frost Centre Maple Syrup Day

The original date set for the maple syrup demonstrations at the Frost Centre has been moved up to March 21st because of the spring conditions that have brought on an early sap flow. Visitors will be treated to a tour of the sugar bush, and a demonstration of the sugaring off process. A festival lunch will also be served in the large cafeteria. Other facilities of the Frost Centre such as their wildlife display will also be open to the public and if you have never been to the centre we enthusiastically recommend you visit it on March 21st between 9:30 a.m. and 3:00 p.m. - and after a day at the centre top it off at the H.C.S.A. dance - Minden Arena - with an added chance of winning \$2,000 in local merchandise.

Grant awarded

The municipality of Sherborne, McClintock and Livingstone has been awarded a grant to assist with updating its zoning by-law. The grant was announced last week by the Ministry of Housing officials in Toronto.

The municipality will receive \$5850 to assist in the zoning by-law update.

Arcades get approval

Township council has approved the opening of two amusement arcades in the community and has also passed a by-law requiring the licensing of all coin operated amusement machines. The laws were enacted at the March 11 meeting of the council.

The two arcades will be located at the Minden Country Mall and in the rear portion of Mae's Country Mart. Both outlets were approved by the council, with a maximum of ten machines being set as the limit.

The council agreed to a licence fee of \$5 per machine. This charge is to be assessed against the new arcades as well as existing machines in the municipality.

At one point during the discussion Reeve Lloyd Walker suggested that the council should only approve the operation of one arcade for the community. "I wouldn't mind giving Mae's a licence, but wouldn't want to see any more issued after that," he commented. The reeve told the meeting, "If there are too many of one type

of business, it is no good for anyone."

Deputy Reeve Doug Pritchard countered by saying the council should not exercise control over the number of businesses of a certain type which can operate in the community. Councillor Lyle McKnight suggested that the amount of business available to the two outlets will determine whether the community can support two such establishments.

The council discussed the merits of a flat licence fee to a fee-per-machine before deciding the latter. The scope of the licensing will also be extended to machines located in businesses other than arcades. This will include the local hotels, pool hall and other establishments.

All arcades will have to conform with township regulations covering the hours of operation, 10 a.m. to 12 midnight daily and 1:30 p.m. to 10 p.m. on Sundays (these hours will not apply to licensed establishments). A township policy also states that an adult must be in attendance at all times at the arcades, that the yards near these businesses are kept clean and that an effort is made to deter any illegal activity on

the premises. The policy states that if such activity is found to be taking place, the licence will be revoked.

The maximum number of machines allowed in the

establishment will also be determined by the fire chief.

Deputy Reeve Doug Pritchard voted against the by-law setting out the licensing fees. He told the meeting he felt the fee was too steep. He did not object to the issuing of licences for the two new arcades.

Zoning by-law

(from page one)

the county development strategy.

There seemed to be little doubt at the council table that a new by-law was needed for the township. Councillors commented on the number of Ontario Municipal Board hearings which have resulted in municipal by-laws being rejected, particularly for proposed re-zonings. It was felt that the hearings go against the municipality because of the outdated zoning by-law.

The Ministry of Housing representative told the councillors that once a by-law revision is underway, Ontario Municipal Board chairmen have been known to accept the intentions expressed in the new statute, even though they are not yet passed, when hearing disputes.

Vanini suggested that if the council called for prices from the consultants now, work could begin on the by-law by late summer. She said the process could take close to a year to complete and suggested the public examination process should take place during the summer so seasonal residents would have an opportunity to comment on the document.

She agreed to prepare terms of reference for the re-write or update for the council. While the council appeared to favour some sort of action on the by-law, no decision was taken on how the municipality will proceed.

Car stolen, car recovered

A vehicle stolen from in front of a Minden hotel was found Sunday morning on Newcastle Street.

The stolen vehicle is the property of Brent Katzmier, 20, of Richmond Hill. When the vehicle was located it had been involved in a collision with a car belonging to Walter Alrutz of Minden. Both vehicles suffered extensive damage.

Constable Mike Smith is investigating the incident.

Car recovered

A four wheel drive vehicle stolen from a Rexdale man has been recovered in the bush in Stanhope Township.

The vehicle was discovered by police after a Minden resident, George Alsop, reported seeing the vehicle on a little used road. Police were on the scene Wednesday morning.

The vehicle had been stolen from Ian Martin. The thieves had damaged the vehicle before abandoning it. The windows and lights were smashed and the radio had been removed.

Constable Bob Pearson is the investigating officer.

BY MARK TURRIS

Members of the grade six classes at Archie Stouffer Elementary School have caught the first run of sap this week, bringing the sugar bush near the school into production. The youngsters oversee the tapping of trees, collecting of sap, and the production of syrup on their outdoor evaporation pans. The final product is available for sale. Craig Crowe taps a new tree as Cory Warburton looks on, while, below, Cory Ziorjen straddles a chunk of firewood as Susan Kernohan and Lynn Bibby handle the buck saw.

Praise offered for Minden attendants

The Minden Ambulance Service has been centred out for special praise by a Bolsover couple. A letter from Mrs. Joyce Dalton was read to the March 11 meeting of Township Council. (The text appears below.)

According to Minden Ambulance director Rob Luke, attendants Tom Graham and Richard Balas were called to a snowmobile accident scene some three miles from the nearest road.

The attendants found Mr. Dalton had been involved in a mishap and had broken his hip. Using a special stretcher equipped with skis, which had been developed by local attendants, the two, with the assistance of two other snowmobilers, brought Mr. Dalton to the ambulance and the Minden Red Cross Hospital.

The letter from the injured man's wife read:

"I would like to extend to the drivers of the ambulance which picked up my husband our sincere appreciation of a job well done.

"My husband has nothing but praise for the excellent way in which they performed their service on February 13 to get him out of the bush."

Editorial

An ounce of prevention

Two weeks ago a number of county politicians, municipal officials and members of various protective services gathered around the council tables at the Anson, Hindon and Minden offices. It was a quiet, low-key meeting called to deal with a serious matter.

The representatives were there to begin the process of planning for a disaster. The group had gathered to hear what provincial Emergency Planning Co-ordinator Chris Kirby could suggest for each municipality in case of a serious emergency. His message could be broken down into a number of important points.

- first of all, the responsibility for actions preceding, during and after an emergency situation rests squarely with the municipal councils, and more specifically, the reeve. He noted the provincial and federal authorities will provide support services, money where needed and experts if required, but the municipal government must bear the responsibility for co-ordinating efforts to protect its citizens.

- a municipality without an emergency plan is a "sitting duck." It cannot respond quickly to an emergency within its own jurisdiction nor provide the type of assistance to neighbouring municipalities who may call for assistance.

It should be noted that area fire brigades, the ambulance service and of course the OPP have emergency plans and communications within their own services for reacting to a disaster situation. While these can provide important first response reaction, large gaps still exist in a township's ability to react to an emergency.

- planning for disaster is a mature, common-sense approach to the future. Ignoring the possibility is a reaction rather akin to the ostrich.

- it can happen here. Both Minden and Haliburton villages have nursing homes - where would the residents of these buildings go if the buildings had to be evacuated quickly? Many communities have arenas or community centres which are an attraction point for large numbers of people from time to time. Provincial Highways cross the county. Tanker trucks with lethal gases or chemicals could use these roadways. Overhead, aircraft waiting to land at Toronto International Airport circle in a holding pattern. The potential for a serious widespread forest fire, though not usually great, still exists. Various dams exist throughout the county. Some could create havoc if they were breached. It can happen here.

The provincial representative told the group the best defence to a disaster is to be prepared, at the municipal level, to react. The municipal representatives who attended the meeting got the message, many others were absent.

The message must get through, however. Planning is needed, not only to ensure the protection of citizens within a municipality but to be able to respond quickly to the needs of residents in neighbouring townships and counties.

To ignore the next for proper preparation is both dangerous and irresponsible.

Coming up

Wednesday, March 18 - W.I. Meeting - St. Paul's Anglican Church, 2 p.m. All welcome.

Wednesday March 18 - Second meeting of Senior Elementary Home and School Association at the Senior Elementary school in Haliburton, 7:30 p.m.

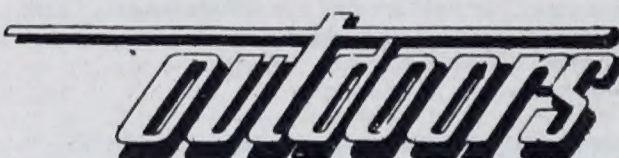

Monday March 23 - General shower in aid of the Todd family to be held at United Church, Minden 7:30 p.m. Everyone welcome!

Each Wednesday the Minden Calorie Counters meet at Archie Stouffer Elementary School, 7 p.m. Come and find out how to shed a few pounds sensibly.

This billboard of coming events is provided as a public service by The Times.

A litter of pussy-willows along the roadside

by Ron Reid of the Federation of Ontario Naturalists

As any northerner will tell you, the vast boreal forest zone of Ontario gets real winter weather. But even when the spruces and pines crack like gunshots in the twilight, and the cold prickles your nose and stiffens your clothes, about thirty species of birds still inhabit the northern forests.

How can they do it, with no snugly heated homes to retreat to in the long winter night? The answer is a fascinating mix of adaptations in both their bodies and their behaviour.

The evolution of northern birds, for example, has provided many with the ability of piloerection, or raising of the feathers to provide better insulation. Some feathers have softer tips in winter, to interlock better when fluffed. Gray jays simply have more feathers in cold weather. Hairy woodpeckers and chickadees are larger in the northern parts of their range, giving proportionately less surface area to

lose heat from the body volume.

Like humans, birds can shiver to help keep warm, but this shivering needs lots of energy. A large crop, or neck pouch, to store energy-rich winter foods such as seeds and nuts is therefore a useful accessory. So are the feathered toes of a snowy owl, or the directly-connected veins and arteries of the feet and beaks of many species to speed up the flow of warm blood to these extremities.

Behavioural changes to conserve warmth can be as simple as tucking a head under a wing, or selecting a

sheltered sunny spot for resting. Winter grouse survive winter nights by diving into a soft snowbank, where the insulating snow can create a temperature difference by up to 50 degrees F. Snow buntings and redpolls have also been reported to use this natural blanket. Small birds often seek shelter in tree holes, sometimes in groups.

Even with all these adaptations, sometimes the winter becomes simply unbearable, and "invasions" of typically

northern species move into southerly climes. However, in almost all cases, these mass movements are caused by a shortage in winter food, rather than by a reaction to cold weather.

Letters

Editor:

I would like to take this opportunity on behalf of the Minden Men's Recreational Hockey League to express our appreciation to Mr. Brian Sisson and his staff, for the manner in which they have maintained both the ice surface and the general appearance of the Minden Community Centre during our hockey schedule, for this year and during past years as well. It continues to be a building in which everyone in the Minden area should be justly proud.

Fraser Rogers for
The Minden Men's
Recreational Hockey League.

Editor:

Recently my husband and I and our pre-teen children attended a dance sponsored by the Kinsmen Club. It was an excellent opportunity for different age groups to have fun. I would like to congratulate the organizers and encourage them to continue planning community dances and I would like to especially encourage the periodic scheduling of "family" dances.

The Kinsmen should consider them to be more than just fund raisers as they would actually be doing a service for our young people in providing a family social activity.

Bernie Davis,
Minden.

HELP
THE KIDNEY
FOUNDATION
IN THE
FIGHT FOR LIFE.
MARCH IS KIDNEY MONTH.

Vote - March 19

The polls will open at 8:00 a.m. and close at 7:00 p.m., for Ontario's 32nd general election on March 19.

More than five million Ontario residents - an estimated 60 per cent of the population - will be eligible to vote in the province's 125 electoral districts.

Urban voters must have their names on the voters list in order to cast ballots.

Rural voters, not on the list, may vote if someone they know who is on the list in their polling division, vouches for them on polling day.

A voter designated to vote for someone else by proxy must take the form certified by the Returning Officer to the poll where the person appointing the proxy is on the polling list. A proxy form may be certified by the Returning Officer of the district up to 7:00 p.m., March 18, the day before the polling day.

Ballots are black, with candidate's names in white, listed with a numeral alphabetically by surname. To the right of each name is a white circle. The ballot must be marked in only one white circle - with a cross or other mark with pen or pencil. A ballot marked in more than one circle will not be counted, but will be considered a rejected ballot.

The voter takes the folded ballot from the deputy returning officer, marks it in private behind a screen, refolds the ballot, and gives it to the deputy returning officer for deposit in the sealed ballot box.

To be qualified to be on the polling list to vote, you must be at least 18 years of age at the time of voting, be a Canadian citizen or British subject and have been a resident of Ontario for at least 12 months prior to March 19.

Legion helps hospital fund

A special fund for purchasing an ultra sound therapeutic machine for the Haliburton Red Cross Hospital is \$600 richer thanks to the efforts of the Haliburton Legion, Branch 129, and Ladies Auxiliary.

A joint donation from the Legion Poppy Fund and the

Ladies Auxiliary was made to the Haliburton Hospital officials last Friday.

The machine is used for therapy and once enough funds have been collected, it will be purchased and made available to all members of the community at the Haliburton Hospital.

The candidates' soap box

The three candidates in tomorrow's provincial election were invited by The Times to provide statements for publication in this week's edition. No restrictions were placed on the statements other than for length. The following reports are those submitted by the candidates for our pre-election issue.

John Eakins--Liberal

I am pleased to have this opportunity to give the readers of this newspaper some of my views on the current provincial election and, particularly, its impact on the riding of Victoria and Haliburton. This is a very

large and complex riding with a host of local problems which need an active and approachable representative as liaison with Queen's Park.

It has been my philosophy, during my terms in office, to maintain the closest possible

contact with individuals and institutions in all parts of Victoria and Haliburton. I have tried, I think successfully, to be available to all sections of the riding and to represent their interests in the legislature. I am happy to put my record of service and accomplishment to the test of public opinion and I am confident the work I have done will be rewarded by my re-election on March 19.

There are a number of issues which are of particular importance to the northern part of this riding and, perhaps, foremost is the need for government help in developing tourism. I chaired a task force on tourism which presented 24 recommendations to the government all of which were calculated to encourage the development of

this industry.

We are blessed in this area with an abundance of lakes, rivers and forests but we have never exploited them enough. The provincial government should be encouraging entrepreneurs in developing new facilities and should be promoting the area to bring in thousands of new visitors and the resulting benefit to the local economy. Tourism is a labor-intensive industry and the unemployment situation could be substantially alleviated by a program of construction and promotion.

This suggested encouragement of entrepreneurs by the government leads me to the important issue of help for small businesses. I introduced a Small Business Act as a private member at Queen's

Park and the Canadian Federation of Independent Business called the Act "Without question the best small business legislation ever to appear in Canada". It is my determination to persist in my efforts in the legislature to see that help for the small business man is given the highest priority.

My party's policy for the senior citizens is based on two fundamental principles; First, age must not deprive people of freedom of choice regarding how they conduct their lives and, second, elderly people should have the freedom to stay in their own preferred surroundings as long as possible.

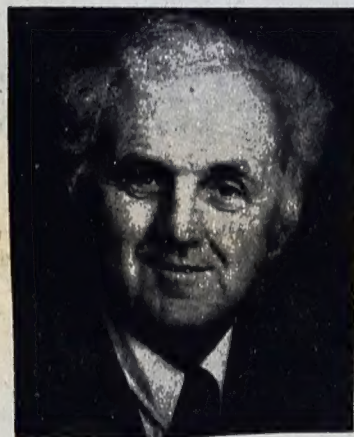

Another item of concern in this riding is the two-price system of Ontario Hydro whereby rural residents pay a 20% higher rate than urban residents. I stand with my party in its demand for equalization of rates. There is no justification in victimizing

citizens who, by choice or necessity, live in rural areas. This must be changed and I will work to see that it is.

I also intend to demand that the \$10 licence fee for cars be extended to include Haliburton County. It is unfair of the government to include Parry Sound in the \$10 area and exclude Haliburton.

There are many other issues to be addressed and on which I intend to represent your interests. I will continue to work for you as I have in the past and I will continue to visit all parts of the riding, not just at election time, but throughout my term of office. I am convinced that effective representation of this riding in Queen's Park requires the closest possible personal contact with my constituents and it is on my record of service and accomplishment that I solicit the support of the voters of Victoria and Haliburton.

Art Field--NDP

Pollution control is a complex social, political, and economic issue. But too often it has been simplistically reduced by corporate polluters to a choice between jobs or the environment. Pollution control, they say, will reduce levels of production, lower our industries'

competitiveness, and increase "non-productive" costs.

However, the costs of pollution itself are high. REDUCTION IN TOURIST REVENUES from acid rain and mercury pollution, forest damage from unregulated smelters, health costs from respiratory illnesses in

Sudbury, and fluoride pollution in Eastern Ontario are just a few examples of real costs which could be avoided by rational industrial pollution control.

Is it really a question of "jobs or the environment"? Are there ways of preserving both jobs and Ontario's beautiful and irreplaceable environment?

Our pollution control laws are, on paper, among the best to be found. But, a consistent refusal by the Conservatives to enforce their own laws and regulations has rendered the legislation valueless.

Not only does the environment suffer, but we fail to create jobs in manufacturing the pollution control equipment Ontario needs.

The government almost always buys the jobs-vs-environment premise without question. They seldom

question the company's claim that it can't afford pollution control equipment. And their short-sightedness on the potential for industries related to pollution control has meant the loss of thousands of potential jobs in this province.

The belief that environmental protection causes job loss is completely false.

A 1978 report from the Ministry of the Environment found that almost 2,000 jobs were being lost in Ontario because pollution control equipment was being imported rather than produced in Ontario. Two major reasons were cited: a lack of adequate government policies to develop the industry and the fact that the pollution control industry is dominated by foreign corporations.

An N.D.P. government

would aggressively promote our own pollution control industry, through its own government purchasing policies, expanded research and development and through Canadian purchasing requirements in pollution control orders.

Many corporations which complain about Ontario's environmental laws could operate profitably and efficiently under far more stringent legislation.

When an N.D.P. government in British Columbia demanded a clean-up of that province's pulp and paper industry, the result was a cleaner environment, greater industrial efficiency and no loss of employment. Reports from other countries with environmental consciences indicate the same results.

New Democrats also believe an immediate start

should be made to develop a major fertilizer industry in northern Ontario using the Cargill Township phosphate deposits. A recent Economic Council of Canada study confirmed the N.D.P. position on the potential for a fertilizer industry in the North. The sulphuric acid needed to utilize the phosphates could be produced from the sulphur dioxide removed from nearby INCO's smokestack, instead of pumping it into our atmosphere to produce acid rain and snow.

New Democrats are committed to greater employment and a clean, safe environment. There is no conflict between these two important goals. In fact, we can create jobs, a clean environment and a healthy economy.

I ask for your vote on March 19, 1981.

Dave Murray--PC

There is no doubt that Bill Davis will form the next government of Ontario. The big decision for the electorate of Victoria-Haliburton is whether this riding will be in opposition to the government of Ontario or become a part of that government and work closely with the various ministries to secure legislation specifically designed for our needs.

The Toronto Star has come

up with an editorial endorsing Bill Davis and predicting a resounding victory. Former Provincial NDP leader, Stephen Lewis makes the same prediction.

With a strong Progressive Conservative government at Queen's Park, it is obvious that a representative who is a working member of that government has a far greater opportunity to hold firmly to the benefits we already have

and to make new gains for Victoria-Haliburton.

With a Liberal representative in this riding we can't even hang on to what we have: The department of National Resources has been taken out and moved to Huntsville climaxing years of transfers of personnel from here and the loss of 15 to 20 jobs. The regional office of the Department of Public Works has been taken out of Lindsay and placed in Orillia and Oshawa.

When you're sitting in opposition to government proposals, it's rather difficult to present a strong case for your constituents, political expediency always leaves the opposition in a weaker position. It is definite that any argument for his constituents presented by a government member receives much greater consideration. If there were any possibility of reversing a decision or arriving at a compromise a government representative has a far greater opportunity

for success in expressing the concerns of the people in his riding.

My Liberal opponent knows all about political expediency. When it was expedient for him to embrace and promote the program of regional government he most certainly did so. He once warned a gathering of 500 farmers - I'm quoting from the Peterborough Examiner: "They must not drag their feet in regional government; the day of the complacent, smug community is past. It is not good enough to say we won't be part of it". End quote.

Now, despite the repeated assurance of Premier Bill Davis that there will be no more regional government established without the expressed approval and consent of the municipalities involved, when you consider his recorded previous stand on regional government, it seems rather unwise of my opponent to even mention it.

I might add that I am on record throughout 12 years of municipal government as being totally opposed to the imposition of regional government.

I think my opponent has given us reason to question his credibility on that issue.

I did not, in any way, attack my Liberal opponent on the basis of his integrity, his earnestness in the performance of his duties or the fact that he has tried to work for his riding.

I do say that he has affiliated himself with the wrong party and is saddled with a leader who is, at best, a deadweight that brings your representative to a dead stop in his efforts to even hang on

to what we have, never mind any gains for Victoria-Haliburton.

I can change this situation with your vote on Thursday, you will place me in a position to work for you and with you in securing gains for Victoria-Haliburton. Being with the Government can mean a lot in preventing the frustration of being left out.

I think it's time for Victoria-Haliburton to join the government of Ontario and the positive policies and programs initiated by the Bill Davis administration. That is a decision only you can make and I respectfully ask that your decision be made in my favour. Thank you.

Three rolls, one toasts

The driver and two passengers of a 1980 model Pontiac were not seriously injured when the vehicle in which they were riding left the road and rolled down a steep embankment. The mishap occurred March 15 on the Vankoughnet Road.

Rodney Titus, 23 of Minden, was the driver of the vehicle. He lost control of the car on the slushy surface of the road. The passengers were David Pentney and Barry Ward.

The vehicle sustained \$7000 damage.

The accident is being investigated by Constable Weldon Popp.

Roll over

The highway was the scene of a similar incident March 14, when a pick-up truck, driven by Henry Barnes, 31, of Gravenhurst, slid on the snow, crashed into the ditch and rolled over. Damage was estimated at \$4000.

Barnes has been charged with careless driving.

Investigating officer was Constable Al Barnes.

\$7000 damage

Another vehicle roll-over, this one just north of Kinmount on Highway 121, resulted in \$7000 damage. The vehicle, a 1979 model Mercury, was being driven by Elgin Wagg, 69, of Stouffville.

Wagg has been charged with careless driving.

Constable Boyd Jarvis investigated the incident.

Car burns

A Volkswagen in tow burst into flames on Highway 503 near Irondale March 9. The vehicle was destroyed by the blaze.

Carl Mintz, 42, of Irondale

was the driver of the vehicle towing the Volkswagen while Owen Mintz, 44, was steering the towed car.

The incident occurred at 10:30 a.m. near the Mintz home.

Investigating officer was Constable Boyd Jarvis.

Township agrees to request parking

The municipality will provide parking for 200 cars near the Horseshoe Lake rapids to accommodate visitors to the kayak championships this spring. The Anson, Hindon and Minden Township council agreed to prepare the parking area after receiving a request from a representative of the Minden Rotary Club at the March 11 meeting.

The local Rotary Club has taken on responsibility for a great deal of the local organization for the Canadian National Slalom Championships.

According to the club spokesman, permission has been obtained from the Orillia Light and Power Company, to use a piece of property they own on the Horseshoe Lake Road for the parking area. The land is near the rapids and located on the north side of the road.

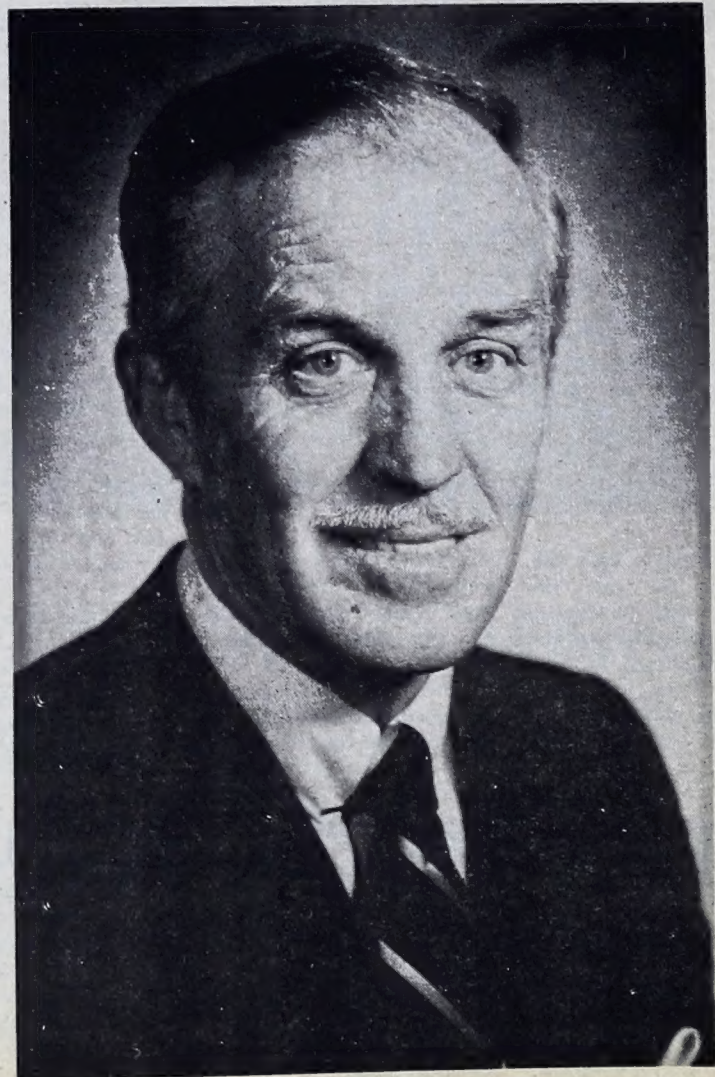

However, the spokesman noted that some grading work will be required and an access road will have to be constructed to the parking area.

The township agreed to carry out the work in time for the spring meets.

It was pointed out that parking was a serious problem along the winding road last autumn when one of the first major meets at the new facility was held. There was also problems with vehicular traffic and pedestrians on the narrow road. As a result, it is likely the road will be closed to through traffic on the day of the major events.

The club spokesman also requested that the council provide outdoor privies for the weekend activities. The municipality had donated these items last year and the council agreed to do so again.

A toyland delight

Parents, relatives and friends were treated to an entertaining display of figure skating Sunday afternoon at the Minden arena. Skaters from the Minden and Haliburton Figure Skating Clubs presented their annual end of the season carnival. This year's presentation was entitled 'Toyland on Ice'. The photos here show just a few of the many delights the audience enjoyed. The skaters also performed Saturday evening in Haliburton.

Wilberforce wins Bantam 'B' tourney

Wilberforce captured the hardware in the Bantam 'B' tournament played this past weekend in Minden. The team defeated Georgina 6-1 to take the championship cup.

Consolation honours were awarded to Mark Street of Peterborough. They trounced Fenelon Falls 13-1 in the consolation finals to take the trophy.

The Minden entry was eliminated after two games. They won their first by tying with Fenelon 3-3. The local team was awarded the victory by virtue of having scored the first goal. In the second contest, however, they were defeated by Georgina 6-1.

Scoring for Minden in the opening contest were Tom MacLeod from John Wells and John Ballantyne; Daryl Ward from Darryl Landry,

and Robert Landry from Tom MacLeod.

The championship Wilberforce team and consolation champions from Peterborough were presented with trophies and medallions donated by Mrs. L. Cramp and Bill Heaton in memory of Reginald (Bus) Cramp.

The opening round scores were: Minden 3 - Fenelon Falls 3, Minden declared winner having scored the first goal; Wilberforce 20 - Little Britain 0; St. Annes of Peterborough 4 - Lakefield Pharmacy 2; Georgina 3 - Lakefield Fuels 1; Mark Street of Peterborough advanced to the second round of the championship after their opposition, Omeme failed to show.

Championship series, second round: Wilberforce 3 -

Mark St. 0 (Mark St. advances to the second round of the consolation finals); Georgina 6 - Minden 1; Georgina 5 - St. Annes 3.

Championship game: Wilberforce 6 - Georgina 1.

Consolation round, second series: Fenelon 4 - Little Britain 2; Lakefield Pharmacy 3 - Lakefield Fuels 3, Fuels awarded victory having scored the first goal; Lakefield Fuels 1 - Mark St. 7.

Consolation championship: Mark St. 13 - Fenelon Falls 1.

Road to be renamed

Confusion over a road sign near the southern entrance to Minden from Highway 35 may soon be over.

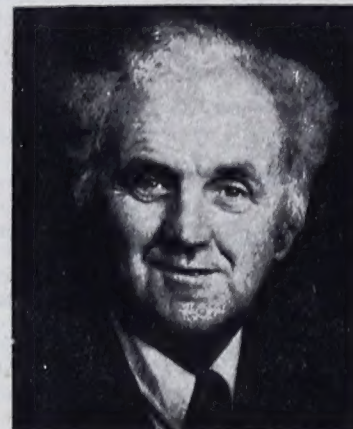

Anson, Hindon and Minden Township council were informed March 11 that the Lutterworth Township council has agreed to rename the road which is causing the confusion. The road, a short distance west of the Bobcaygeon Road turn-off from Highway 35 is marked 'Minden Road 1'. Apparently the designation has resulted in some people who are unfamiliar with the area, turning onto the road in search of Minden Village.

The potential for confusion was brought to light earlier this year by Minden councillor Ed Pergolas.

Since the road is in Lutterworth Township the local council requested that they make the change.

The road will be renamed the 'Lutterworth Boundary Road'. The letter from the Lutterworth council noted that the sign marking the road is erected and maintained by the Ministry of Transportation and Communications and any change prior to the need for replacement would have to be paid for by the municipality.

Whatever Happened to the Human Race?

A stunning visual experience * Multi-episode series * Two years in the making * Filmed in five countries — over 50 locations * Text and narration by Dr. Schaeffer and Dr. Koop * Clearly understandable by all from early teens up.

PLACE
**Haliburton Highlands
Secondary School**

EPISODE	DATE
1. 7:00 p.m.	March 27
2. 8:00 p.m.	March 27
3. 10:00 a.m.	March 28
4. 11:00 a.m.	March 28
5. 1:30 p.m.	March 28

2:30 p.m. - Panel discussion and close.

We are thankful to the volunteer panelists (who have their own views) but none the less have volunteered their expertise to answer "fact" finding questions. THIS IS NOT A DEBATE.

EPISODE 1

"Abortion of the Human Race"

Closely scrutinizing human life in its embryonic form and development, the episode leads into an examination of abortion as practiced in our society, its roots and growth in the legal system.

EPISODE 2

"Slaughter of the Innocents"

Looks at what seems almost unbelievable to many people; namely, that in our own day infanticide (killing of born babies) is *already* being practiced because of the door which abortion has opened. Key people in the medical profession are advocating its further practice and legalizing on much the same grounds that abortion was argued earlier in the '70's. This growing practice and endorsement by the medical profession is documented.

EPISODE 3

"Death by Someone's Choice"

Carefully examines the proponents of euthanasia and projects in prophetic terms what the future will hold if this current trend toward the elderly and unwanted continues.

EPISODE 4

"The Basis for Human Dignity"

An innovative and original critique of the humanistic thinking which has brought us to this place of apathy towards the true rights of individuals. It presents a strong argument for the viability of the Christian alternative and its reasonable qualifications for being examined, not as *an* alternative, but *the* alternative, indeed Truth itself.

EPISODE 5

"Truth and History"

The statement of the Gospel from the time of the giving of the Law of Moses to the time of the early church. The Gospel of Jesus Christ, and the hope it brings, is examined, and developed. Thus, the series ends with a simple, yet strong, presentation of the only real solution to man's problems.

Hall's keep hopes alive - force final game

In one of the most exciting matches of the season, Hall's Insurance battled back from a 5-0 deficit to keep their hopes alive in the Minden Men's Recreation Hockey League play-offs. The final score of the game which went into sudden-death overtime, was Hall's 6 - Home Hardware 5.

The win by Hall's over the Home Hardware team evened the series at two games apiece in the best of five play-off.

Home had established a seemingly invincible 5-0 lead by the mid-third period point when the Hall's team came alive. They battled back to a 5-5 tie prior to the final buzzer and forced the game into overtime.

Three minutes into the extra frame Wayne Johnson connected for Hall's and sealed the game.

The win forces the series into a fifth and deciding game which will be played this Monday evening at the arena. Scoring for Home Hard-

ware were: Shaine McKelvey from Ted Vasey; Barry Walker from McKelvey and Scott Gartshore; McKelvey from Gartshore; Gartshore from Walker and McKelvey; and Vasey from Walker.

The Hall's goals were scored by: Dean Hewitt from

Pete Lattner; Hewitt again from Lattner; Steve Davies unassisted; Lattner from Jerry Campbell; Davis from Neil Burk; and, in the overtime period, Wayne Johnson, unassisted.

The public is invited to the final game in the play-offs scheduled for Monday evening.

Tournament champs

Several teams from Minden participated in the Haliburton Kinsmen Invitational Hockey Tournament this past weekend. Rockcliffe Hotel took the championship, while Home Hardware of Minden took the consolation cup.

Home Hardware goalie looks back as the puck slips by him. This one missed the net, but six others eluded him.

PUCK TALK

Novice

Minden Novice took a 2-1 lead in the best of five consolation play-off series with Fenelon Falls last week as they shut-out the opposition on their own turf. The final score in that contest was 3-0.

Randy Bull scored two goals for Minden with assists going to Robbie Ackerblade and Kent Taylor on the first and Taylor again on the second. Taylor figured in the other Minden marker, this time as the scorer. The assist was recorded to Randy Bull.

Lorne Greer recorded the shut-out for the Monarchs.

The novice team met Fenelon Falls Tuesday

evening. (March 17).

The squad will also be in Haliburton this weekend for the Glen Dart Tournament.

Atom

The Minden Atoms recorded two losses in their

round robin play-offs this past week. The first loss came at the hands of Bobcaygeon, who shut-out the local team, 4-0. That game was played March 10.

In Sunderland Saturday the Minden Atoms went down to a 5-2 loss at the hands of their hosts. Scott Russell scored both of the goals for Minden. Dwayne Cooper assisted on both with Kent Taylor assisting on one.

Sunderland emerged from the series with the best record and now advance to the next round. The Minden Atoms have been eliminated from play-off action.

The schedule

Saturday March 28: Minden hosts the Tyke tournament at the Minden arena. Games all day.

April 11: A long way off perhaps, but just a reminder when the end-of-the-season dance will be held at the Community Centre. Mark the date on your calendar and plan to attend.

Drug charge laid

A Highland Grove youth has been charged with possession of a restricted drug, breach of probation and possession of prohibited weapon. The charges were laid March 11.

John David Weedon, 18, was met by police as he arrived in Minden on the Toronto bus. A search of the individual revealed a quantity of LSD and a set of nunchaku sticks.

Constables Al Bibby and Dennis Potter were in charge of the investigation.

by
Linda English

We began another week of activity at Hyland Crest on Monday morning with a vigorous session of fun and fitness. The winner of the Roll the Ball game was Millie Wood. Millie is also lucky at Bingo.

It is nice to have Mrs. Knight back in our group after having major surgery.

In the afternoon our craftroom was filled with busy ladies working on their projects. The quilt is now completed and displayed at the front entrance. Tickets are on sale at the office. The draw will be held at the Strawberry tea in early July.

Several residents went to the auditorium to watch three very interesting films. "A Holiday in Canada" was a colourful picture filmed in areas across Canada. We saw the changing of the guards in Ottawa and watched the beautiful Scottish festival held in Nova Scotia. The residents enjoyed the Calgary Stampede most of all.

"The Capital Yesterday" was filmed in Ottawa and told us the history of the city. We saw the beautiful old buildings which were built in 1804 and how they have been restored. It was interesting to note that the first inhabitants were Indians. "The Welcome Season" showed us the beauty of New Brunswick.

Tuesday morning

Events planned for family

A number of community events have been planned for a family who lost their home and possessions in a fire March 7.

A fire at the home of James Todd and family destroyed the structure and contents.

A number of ladies in the community have planned a general shower for the family next Monday evening. The shower will be held at the United Church Hall in Minden. Everyone is invited to attend the shower which begins at 7:30 p.m.

A dance has also been planned for March 28. Music will be provided by a disc jockey. Admission has been set at \$10 per couple. The dance will take place at the Minden Community Centre, beginning at 9 p.m.

Night. Our residents look forward to the weekly games of cribbage, euchre, poker and crokinole.

The Maple Lake A.C.W. brought a delicious variety of homemade goodies for the Thursday tea party. The ladies visited their many friends, and made it a very enjoyable afternoon for all our residents. Thank you girls, for a lovely lunch.

Friday afternoon, it was a pleasure as always to welcome Grace Coburn and Fred Ballard to lead the weekly singsong.

The annual auxiliary card party was held in the auditorium on Friday evening. Many lovely prizes were given and everyone enjoyed an evening of progressive euchre. A cup of tea, and a variety of tasty tea breads were served to end the evening of fun.

Points on potting

Don't take your houseplants for granted. Now that they are starting to grow again, check to see whether they need repotting or fresh soil, says Bob Fleming, Ontario Ministry of Agriculture and Food horticulturist.

As plants grow, their roots need more room to develop. If the roots are pot bound, repot the plant into a larger container or prune the roots.

If you intend to repot, choose a container one size larger than the original one. Remove the plant from its pot by holding the pot sideways in one hand. Tap the bottom of the pot gently, and ease the plant out slowly. Shake some soil from the roots, and repot in rich, fresh potting soil.

"While transplanting, you may wish to divide or separate plants, such as ferns, to obtain more plants," says Mr. Fleming.

If you have very large houseplants, Mr. Fleming recommends engaging the help of one or two people to ease the plant from its container. Shake some of the

soil from the roots and prune lightly, then repot into the same container with fresh potting soil.

When pruning the roots of any houseplant, be careful not to remove more than one-quarter to one-third of the roots.

Plants that have been growing in the same pot for more than one year also need attention at this time. After one or two years, houseplants

exhaust the nutrients in the soil, says Mr. Fleming. As a result, they won't produce good growth, and may develop brown leaf edges or paleness along the veins. Fresh soil will usually suffice.

Follow these steps to ensure a healthy environment for the plant roots, and you'll be rewarded with vigorous, healthy plant growth this spring.

X

VICTORIA-HALIBURTON LIBERAL ASSOCIATION

The Figure Skating Show of the combined clubs from Haliburton and Minden was excellent, the setting was Toyland, and the costumes were suited to all the numbers. The little members seem always to steal the show, but we must not forget to mention all the solo numbers; what great talent there is here in our County. The workers and the pro, who produced this show should be very happy that it was so successful, both at Haliburton on Saturday and at Minden on Sunday.

At the weekly mini card party at St. Paul's Parish Hall last Thursday afternoon winners were for cribbage Dick Cummings and Ethel Leigh and for euchre lone hands (on a cut) Betty Harper and Alice Sedgwick and Harry MacMinn. These will resume on March 26. See you then.

Be grateful for the kindly friends that walk along your way
Be grateful for the skies of blue that smile from day to day;
Be grateful for the health you own, the work you find to do—
For round about you there are those less fortunate than you.

The Friday 13th Card Party at Hyland Crest sponsored by the Auxiliary was truly successful with some of the winners being for euchre Isobel Harrison, lone hands Doris Robertson, for bridge Gerry Haywood, for cribbage Carrie Drysdale and on the raffle of the box of groceries, Ray Cox.

Perhaps many didn't know of the movies at the Firehall last Saturday afternoon, but the small crowd that was there, really enjoyed the films.

The community sends good wishes to these people who are in hospital or who have now returned home, Diane Stevens, Alice Todd, Toots Miles, Margot Ziorgen, Trudy Coulter and Carolann Titus.

On the Second Chance

Draws from Wintario Tickets, winner at Stedmans was Ross Walker and at Mae's Jeanne Sears.

Sincere sympathy goes to the families and friends of the late Brian Todd, Stanley Urbanak (West Guilford) and Bill Wilson (Haliburton) whose funerals were since last week.

The Mike Hickey family of Powassan enjoyed a weekend with friends in the village.

Mr. and Mrs. Reg Cowen and family of Phelpston visited with Mr. and Mrs. Lyman Cox and other relatives over the weekend.

Whenever things go right for me,
I'm lucky - and I know it.
I have a singing heart a while,
I'm happy, and I show it!
If you some sunny days should hit,
Please scatter happiness a bit!

Congratulations to Mrs. Ern Windover who had a birthday and the party with other residents of the Seniors Apartments was on Monday.

Charlene Austen was the recipient of some lovely gifts at the Baby Shower at the home of Nola Danilko.

Ethel and Jack Cowen and Cora Hewitt and Joyce Hewitt are home after a motor trip through United States to Florida and round that State and back.

Weekend guests with their mother Mrs. Ern Hewitt, were Colin Hewitt of Toronto and Fred Hewitt of Scarborough.

Eleanor Addison and girls of Scarborough were weekend guests with Cora Hewitt.

Weekend guests with the Bob Hughes were the Blake Hughes family of Mississauga.

Mr. and Mrs. Bud Stamp and Jason and Maud Coulter visited over the weekend with

the Ray Rivers family of Downsview.

The community sends belated good wishes to Mr. and Mrs. Frank Watson of Carnarvon who celebrated their 49th Wedding Anniversary on last Saturday, March 14th.

A family gathering was held at Virginia and Joe Gentle's over the weekend to celebrate Ethel Leigh's 79th birthday of March 17th. Those present from the Carleton Place area were Marilyn, Craig, Marvin, Sue, Kathy and Shelly Robertson; Sharon and Terry O'Keefe and Maureen and Dale Reid with great grandsons Christopher and Dale.

The "Kin" Conference held at Coburg last week with 15 from Minden club attending. Larry Amyotte was elected Deputy Governor of Zone C and Marg Prentice was elected Kinette Co-ordinator for Zone C, John Pentney was elected Kin Co-ordinator and Jerry Walker was elected Historian and Sports Award Chairman. This makes a nice representation on the slate of Zone officers, and shows what capable people we have in our village.

You never know when one you know
Will finish life's short run.
If you intend to cheer a friend,
It's time to get it done!
A kindly deed, a word to say?
The time is now. Do not delay!

Coming events are few, Nursery Play Skating Party at the usual rates is March 26 from 2-4; April 2nd is the Annual Card Party for the Foster Child at St. Paul's Parish Hall at 8 p.m. with Bridge, Euchre, and Cribbage and prizes and the lunch is always exceptional.

Hope all the Irish people have a grand 17th - Cold and sunny today (Monday) with brisk March winds. Roads have heaves in spots so drive carefully. Cheerio until next time.

Lines from Lutterworth

by Jean Lacey

Hi! Well the weather still can't make up its mind what to do. One minute sun, the next snow. It sure will be nice when we can get outside and do something, not connected with snow.

Don't forget to get out and vote this Thursday. The way the world is going we need good men in government so make your vote count. Don't leave it for someone else to do.

Sorry to hear of the passing of Brian Todd. He was buried on the weekend. Our condolences and prayers are with the family.

Glad to hear Frank Bowron is home after his bout in hospital.

Mr. and Mrs. Bert Bowron, from Kinmount, visited with the Ken Bowron's on the weekend.

The Dunsford's visited with Rick and Pam Dunsford in Fenelon Falls on Sunday.

Sorry to hear Alice Todd is not feeling too well and is in hospital. Hope she is up and about soon.

Maurie and Heather Hickey, from Powassan, spent some time with the Millers while their mother and father, Val and Mike visited friends in the area.

The Minden and Haliburton Skating Clubs put on a very good performance at their skating carnival on Sunday. A goodly crowd was out to enjoy the program.

Hans and Hilda Kieckhofer have returned from a lovely two week visit in Antigua.

Mr. and Mrs. Juergen Nuetzel were up to their cottage for a few days.

Hint of the Week
To remove lint from dark or nappy garments, use vinegar in the final rinse.

Don't mind criticism. If it is untrue, disregard it; if it is unfair, don't let it irritate you; if it is ignorant, smile; if it is justified, learn from it.

Kids Korner

Sing a Song of Science
Carey Blyton
Sing a song of science,
A rocket-ful of mirth;
Four-and-twenty monkeys
Orbiting the earth.

When the rocket landed,
It came down on the moon,
And there they scoffed the Gruyere cheese
With knife and fork and spoon.

Why do firemen wear red suspenders?

To keep their pants up.
Teddy: I went riding this morning.
Betty: Horseback?
Teddy: Oh yes. He got back two hours before I did.

Taxi Driver: Look outside and see if my blinker is on.
Passenger: Yes - No - Yes - No.

Heather: I can't see how you dropped a full glass and didn't spill any water.
Bill: It was full of milk.

Tom: I wonder what keeps this old shack from falling apart?

Cliff: The termites are holding hands.

When is it bad luck to be followed by a black cat?

When you're a mouse.
What weighs almost nothing, yet you can't hold it?
Your breath!
What is everyone in the world doing right now?
Breathing.
Bye for now. Take it easy.
God bless till next time.

All parents are invited to attend a film night presenting films used in Senior Schools in Haliburton County on puberty, sexuality, birth control and V.D.

ANNOUNCEMENTS

The films are as follows:

- Family talks about Sex
- V.D. Quiz
- Then One Year
- Am I Normal
- His Responsibility
- It Couldn't happen to me
- Taking Chances

These films are being presented in order to inform parents (1) What is available for Sex Education classes in schools. (2) To increase their own knowledge and awareness of Sexuality and Birth control, to assist them in discussion with their own children.

Dates and Locations are as follows:

- (1) Archie Stouffer Public School - library. Monday, March 30, 1981. 7:00 p.m. to 10:30 p.m.
 - (2) Haliburton Senior Elementary Public School - library. Tuesday, March 31, 1981. 7:00 p.m. to 10:30 p.m.
 - (3) Cardiff Elementary School - Thursday, April 2, 1981. 7:00 p.m. to 10:30 p.m.
- Films are being presented by Haliburton, Kawartha, Pine Ridge District Health Unit in co-operation with the Haliburton County Board of Education.

All interested members of the community welcome! 3CD
